

ACGME International

**Advanced Specialty Program Requirements for
Graduate Medical Education in
Dermatopathology
(Dermatology, Pathology)**

Initial Approval:

1 **ACGME International Specialty Program Requirements for**
2 **Graduate Medical Education**
3 **in Dermatopathology (Dermatology, Pathology)**
4

5 **Int. Introduction**
6

7 *Background and Intent: Programs must achieve and maintain Foundational Accreditation*
8 *according to the ACGME-I Foundational Requirements prior to receiving Advanced Specialty*
9 *Accreditation. The Advanced Specialty Requirements noted below complement the ACGME-*
10 *I Foundational Requirements. For each section, the Advanced Specialty Requirements*
11 *should be considered together with the Foundational Requirements.*
12

13 **Int.I. Definition and Scope of the Specialty**
14

15 Dermatopathology is the subspecialty of dermatology and pathology that is concerned with
16 the study and diagnosis of diseases of the skin and adjacent mucous membranes, cutaneous
17 appendages, hair, nails, and subcutaneous tissues by histological, histochemical,
18 immunological, ultrastructural, molecular, and microbiological techniques. Graduate medical
19 education programs in dermatopathology provide organized education in all current aspects
20 of dermatopathology, including basic science, laboratory procedures, laboratory
21 management, and quality assurance.
22

23 **Int.II. Duration of Education**
24

25 Int.II.A. The educational program in dermatopathology must be 12 or 24 months in length.
26

27 **I. Institution**
28

29 **I.A. Sponsoring Institution**
30

31 I.A.1. A fellowship in dermatopathology must function as an integral part of an
32 ACGME-I-accredited residency in dermatology, anatomic pathology, or clinical
33 and anatomic pathology.
34

35 I.A.2. The Sponsoring Institution must provide clinical services and qualified faculty
36 members in dermatology and anatomic pathology or anatomic and clinical
37 pathology.
38

39 **I.B. Participating Sites**
40

41 See International Foundational Requirements, Section I.B.
42

43 **II. Program Personnel and Resources**
44

45 **II.A. Program Director**
46

47 See International Foundational Requirements, Section II.A.
48

49 **II.B. Faculty**
50

51 See International Foundational Requirements, Section II.B.
52

53	II.C.	Other Program Personnel
54		
55		See International Foundational Requirements, Section II.C.
56		
57	II.C.	Resources
58		
59	II.D.1.	The program must provide at least 5,000 new accessions per fellow per year with a variety of dermatopathology specimens that represents the breadth of dermatopathology.
60		
61		
62		
63	II.D.2.	The program must provide each fellow with a designated work area, microscope, and computer with internet access.
64		
65		
66	III.	Fellow Appointment
67		
68	III.A.	Eligibility Criteria
69		
70	II.A.1.	Prior to appointment in the program, fellows must have successfully completed an ACGME-I-accredited residency program in dermatology, anatomic pathology, or anatomic and clinical pathology, or a dermatology, anatomic pathology, or anatomic and clinical pathology residency program acceptable to the Sponsoring Institution's Graduate Medical Education Committee.
71		
72		
73		
74		
75		
76	II.B.	Number of Fellows
77		
78		See International Foundational Requirements, Section III.B.
79		
80	III.	Specialty-Specific Educational Program
81		
82	III.A.	ACGME-I Competencies
83		
84	III.A.1.	The program must integrate the following ACGME-I Competencies into the curriculum.
85		
86		
87	III.A.1.a)	Professionalism
88		
89	IV.A.1.a).(1)	Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles.
90		
91		
92	IV.A.1.b)	Patient Care and Procedural Skills
93		
94	IV.A.1.b).(1)	Fellows must provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health. Fellows must demonstrate competence in:
95		
96		
97		
98		
99	IV.A.1.b).(1).(a)	diagnosing skin disorders by direct inspection and microscopy using special stains, immunohistochemistry, and immunofluorescence; and,
100		
101		
102		
103	IV.A.1.b).(1).(b)	reviewing and diagnosing dermatopathological specimens.
104		

105		
106	IV.A.1.b).(2)	Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice of dermatopathology.
107		
108		
109		
110	IV.A.1.c)	Medical Knowledge
111		
112	IV.A.1.c).(1)	Fellows must demonstrate knowledge of established and evolving biomedical clinical, epidemiological, and social-behavioral sciences, including scientific inquiry, as well as the application of this knowledge to patient care. Fellows must demonstrate knowledge of:
113		
114		
115		
116		
117		
118	IV.A.1.c).(1).(a)	dermatopathology, to include the related basic sciences and laboratory and clinical sciences, from application to practice, as well as performance on objective exams.
119		
120		
121		
122	IV.A.1.d)	Practice-Based Learning and Improvement
123		
124	IV.A.1.d).(1)	Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.
125		
126		
127		
128	IV.A.1.e)	Interpersonal and Communication Skills
129		
130	IV.A.1.e).(1)	Fellows must demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, patients' families, and health professionals.
131		
132		
133		
134		
135	IV.A.1.f)	Systems-Based Practice
136		
137	IV.A.1.f).(1)	Fellows must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the social determinates of health, as well as the ability to call effectively on other resources in the system to produce optimal care.
138		
139		
140		
141		
142		
143	IV.B.	Regularly Scheduled Educational Activities
144		
145	IV.B.1.	The didactic curriculum must include regularly scheduled lectures, tutorials, seminars, and conferences.
146		
147		
148	IV.B.1.b)	Fellows should have instruction which includes the use of and access to study sets and files of usual and unusual cases, as well as other educational resources, including the internet.
149		
150		
151		
152	IV.B.1.c)	Surgical pathology conferences should include the review of slide sets of diseases relevant to dermatopathology.
153		
154		

- 155 IV.B.1.d) Fellows should attend relevant clinical dermatology, surgical, pathology,
156 and dermatopathology conferences.
157
- 158 **IV.C. Clinical Experiences**
159
- 160 IV.C.1. Rotations must be of sufficient length to provide a quality educational experience,
161 defined by continuity of patient care, ongoing supervision, longitudinal
162 relationships with faculty members, and meaningful assessment and feedback.
163
- 164 IV.C.3. Rotations must be structured to allow fellows to function as a part of an effective
165 interprofessional team that works together toward the shared goals of patient
166 safety and quality improvement.
167
- 168 IV.C.3.a) The program must ensure that appropriate professional interaction is
169 initiated and maintained between fellows and other physicians involved
170 in the care of a patient, including participation in interdisciplinary
171 conferences (e.g., tumor board) and reporting unexpected or critical
172 findings and information to the physician responsible for the clinical care
173 of a particular patient.
174
- 175 IV.C.4. All fellows must review and diagnose dermatopathology specimens throughout
176 the 12 or 24 months of accredited education, and specimens must be equivalent
177 in quantity and quality for all fellows.
178
- 179 IV.C.5. In a 12-month program, at least four months, and in a 24-month program, eight
180 months must be devoted exclusively to the study of dermatopathology.
181
- 182 IV.C.5.a) During each 12-month period, each fellow must examine at least 5,000
183 dermatopathology specimens, including in-house or referred specimens
184 in the institution's accessions file for which reports are generated.
185
- 186 IV.C.6. Fellows who are pathologists must devote 50 percent of the remaining months of
187 the program to education in clinical dermatology provided by the dermatology
188 teaching faculty.
189
- 190 IV.C.6.a) Fellows who are pathologists must each examine at least 500
191 dermatology patients during each 12-month period, including children
192 and adults.
193
- 194 IV.C.7. Fellows who are dermatologists must devote 50 percent of the remaining
195 months of the program to education in anatomic pathology provided by the
196 pathology teaching faculty.
197
- 198 IV.C.7.a) Fellows who are dermatologists must each examine at least 500
199 surgical pathology specimens during each 12-month period,
200 representing the breadth of dermatopathology.
201
- 202 IV.C.8. Fellows must be exposed to laboratory management.
203
- 204 IV.C.9. Fellows must be exposed to molecular techniques.
205
- 206 IV.C.10. All fellows must have clearly defined assignments and increasing responsibility

207		appropriate to their demonstrated competence in dermatopathology.
208		
209	IV.C.11.	All fellows must participate in teaching dermatopathology to dermatology residents and/or pathology residents.
210		
211		
212	IV.C.	Scholarly Activity
213		
214	IV.D.1.	Fellows' Scholarly Activity
215		
216	IV.D.1.a)	Each fellow must participate in scholarly activity by publishing or preparing one or more manuscripts suitable for submission to a peer-reviewed publication and/or giving at least one presentation at a regional or national professional society meeting on topics relevant to dermatopathology.
217		
218		
219		
220		
221		
222	IV.D.2.	Faculty Scholarly Activity
223		
224	IV.D.2.a)	The members of the faculty must actively participate in scholarly activity, such as conducting basic or clinical research, publishing in peer-reviewed journals, and/or speaking at regional or national continuing education meetings.
225		
226		
227		
228		
229	IV.D.2.b)	The program must demonstrate dissemination of scholarly activity within and external to the program through peer-reviewed publication, or faculty members' participation in grand rounds, posters, workshops, quality improvement presentations, podium presentations, grant leadership, non-peer-reviewed print/electronic resources, articles or publications, book chapters, textbooks, webinars, service on professional committees, or service as a journal reviewer, journal editorial board member, or editor.
